PROFESSIONAL SUMMARY

Data-driven UI/UX Designer with 1+ year of experience specializing in high-conversion Fintech and Retail Banking interfaces. Proven track record in optimizing financial dashboards and mobile workflows to improve user retention and task efficiency. Expert in Figma, responsive design systems, and bridging the gap between complex user needs and clean, accessible visual solutions.

WORK EXPERIENCE

UI/UX Designer

Apr 2025 – Present

Dzinemakers UI/UX Studio

Optimized Fintech dashboards for scalability, resulting in a 20% improvement in user task completion speed through streamlined data visualization

Developed high-fidelity prototypes in Figma that reduced developer handoff friction by 30% via comprehensive design tokens and documentation

Spearheaded user research sessions for 3+ major projects, identifying friction points that led to a 15% increase in user engagement metrics

Collaborated cross-functionally with engineering teams to ensure 100% design-to-code accuracy across mobile and web platforms

UI/UX Design Intern

Jun 2024 – Aug 2024

MakeMyReach

Redesigned core mobile navigation, which reduced user drop-off rates by 12% during the onboarding process

Created 50+ wireframes and interactive flows that improved the clarity of complex financial transactions for non-technical users

Built a reusable UI component library, cutting down future design iteration time by 25%

PROJECT HIGHLIGHTS

Arihant Fintech App

Engineered an end-to-end investment journey focusing on accessibility. Resulted in a UI that simplified portfolio management, increasing perceived ease-of-use in testing by 40%.

NexaHR Dashboard

Built a responsive SaaS dashboard for 1,000+ users. Focused on information architecture to reduce navigation clicks by 3 steps for primary HR tasks.
